VISION

A professional institution committed to the promotion of quality engineering and technology practice as a catalyst to national development.

MISSION

We exist to promote engineering and technology practice that equips members through the enhancement of professional development, strategic partnerships and influencing policy at all levels.

STRATEGIC OBJECTIVES

The Institution of Engineering and Technology (IET) has the following strategic objectives that it aims to drive its Vision and Mission.

- Enhancing the professional capacity of all members.
- Working in partnership with institutions towards the promotion of quality engineering practice.
- Provision of responsible stewardship of the resources through the strengthening of institutional structures.
- Influencing engineering and technology policy decisions at all levels of governance.

BACKGROUND

Engr. Wonder Salami Davor ,
F.P.E IET GH
President

The Institution of Engineering and Technology Ghana, is a registered Licensed Professional Engineering Body of the Engineering Council, Ghana under the Engineering Council Act 2011, Act 819. It was first registered as the Ghana Institution of Technicians Engineers under the Professional Bodies Registration Decree 1973, (NRCD 143) in 1986 and gazetted under Certification Number 23. The institution later rebranded into the Institution of Incorporated Engineers in conformity to global trends in the Engineering Profession.

In February 2014, in view of the fast-growing Membership, the upgrading skills and academic qualification, coupled with the challenges to be addressed as a founding Institutional Member of the Engineering Council in Ghana, the Institution again undertook a constitutional review as part of which, its name was changed to the Institution of Engineering and Technology, Ghana.

The institution derives its membership from various professional practitioners from the Mechanical, Automobile, Aviation, Marine, Agricultural, Civil, Building/Construction, Electrical, Electronics, Telecommunications, Chemical, Biomedical and allied engineering fields and is mandated by its law of incorporation with the Registrar General's Department to register Professional Engineers, Professional Engineering Technologists, Engineering Technicians and Engineering Craftsmen.

Institution of Engineering and Technology (IET), Ghana

IET-GH ANTHEM

All hail the Institution of Engineering
And Technology with pride
The beacon of hope for our present day
And generations yet unborn (2X)
With our heads, our hearts, and our hands
We engineer the growth of Mother Ghana
Together, we resolve for excellence,
Transforming the future of mankind

Chorus

*Arise! Arise! for IET
Arise! Exponents of creativity
Arise! Innovators, to
transform our world
To the pride of IET (2X)*

*Composer: Samuel Agbenyo
September, 2024*

ENGINEERS' CREED

I..... an Engineering Practitioner, I pledge to dedicate my professional knowledge and skill to the advancement and betterment of human welfare.

I.....Pledge:
To give the utmost of my performance;
To give and participate in none but honest enterprise;
To live and work according to the laws of man and the highest standards of professional conduct;

To place service before profit, the honor and standing of the profession before personal advantage, and the public welfare above all other considerations.

In humility and with need for divine guidance, I make this pledge.

So must it be.
